

WHO WE ARE?

PRESENTATION

since 1961

Manufacturer of bathroom accessories since 1961 in Portugal, from where we export our products to demanding markets all over the world, POMBO is a national fabrication enterprise, internally developing all its creations thanks to the collaboration of exceptional Human Resources.

The range of products we offer is vast. This is due to the flexibility and variety of the installed machinery and equipment. Being so it becomes perfectly possible to easily customize and adapt products to the specific dimensions and characteristics that each space requires. Our main purpose, however, is directed to the manufacture of sets of bathroom accessories including towel rails, robe hooks, toilet paper holders, bathroom shelves, towel racks, among others, made entirely of brass, addressing medium-high and luxury market segments.

Numerous hotels fitted with POMBO's bathroom accessories can be found throughout Portugal and the World. Some of them include hotels from prestigious chains as Sheraton, Hilton, Namaskar Hotels, Meridien, St. Régis, Radisson, Intercontinental, Holiday Inn, Crown Plaza, Marriott, Mandarin Oriental, Mercure, Méliá, Bom Sucesso Design Resort, CS Hotels, The Yeatman Hotel, Real Hotels, Tivoli, great Palaces in Paris such as the Plaza Athenee, Le Meurice, among others.

Since its foundation, POMBO has always perceived and promoted, with its products, design as a differentiating element: It promotes value, gives meaning and transmits emotion, striving to create fittings, always pursuing excellence in everything we develop. Careful selection of raw materials, modern manufacturing equipment, tight quality control, extreme preoccupation with the environment and a talented team, guarantee the quality for which our products are recognized.

Our corporate development strategy for the European market has been consolidated through the creation of a representation office in Paris – POMBO|design France – responsible for the commercial management of the Central European market and conferring greater notoriety to the brand.

With an everlasting strategic objective to reinforce the POMBO brand, showing the distinctive quality, innovation, design and services characteristics which differentiate us from the competition, POMBO strives to be present and spread its brand through the means which are available. This motivates us to be a frequent exhibitor in the world's most prestigious and recognized international fairs.

Please visit our site at www.pombo.pt and consult our catalogue at www.pombodesign.com where you can assess the quality, design and beauty of our products in perfect harmony with very competitive prices.

A close-up photograph of a jeweler's workbench. A jeweler's hand is visible, holding a gas torch that is directed at a small metal component held in a black vise. The torch's flame is bright blue and orange. The workbench is cluttered with various tools and materials, including a tray of thin metal strips and a coiled metal spring. The lighting is dramatic, highlighting the heat of the torch and the textures of the metal and tools.

ECOLOGICAL COMPANY

since 1988

Coupled with the design and innovation of its creations, POMBO seeks to incorporate the best technologies, economically sustainable and environmentally friendly, in order to reduce the time and costs associated with the entire production process and the use and handling of natural resources.

To this end, the factory has several extraction equipment and air purification in the polishing and coating sections, as well as a waste water treatment plant. All solid waste is delivered to the authorities for further processing.
